Governor Attempts Another Grand Stand Play in Negro Lynching Case.

Near Mayor Smith Shoved Forward To Make Alibi Statements for Failures.

The Machine Will Pick Ticket Without Help or Suggestion From Voters.

The lynching of the negro James gallery-playing Governor a chance to rush to the footlights, but it glad to note that his melodrama performance didn't cause the death of many innocent persons, as was the case at Lexington last year. In the Lexington incident he was warned not to send the negro Lockett to Lexington for trial, Lockett then being confined in the Reformatory at Frankfort. Lockett had raped and murdered Geneva Hardaman, a ten-year-old child, and people of Central Kentucky were aroused as never before. But "Howdy Ed" chose to play to the galleries, the negro was brought to face the angry citizens from miles around, and all know the result. Innocent men and bystanders were killed and there are orphans at Lexington and Paris today because of that mistake. The Paris Democrat said then that the same mistake would never occur again during Morrow's term, and here just thirteen months after the Lockett case that prediction came true. The people did not wait for the grandstand play this time. Old "Howdy Ed" has rushed to the footlights of course, ranting about "\$25,000 re-"law and order," etc., and removed the Versailles Jailer, but no one takes Morrow seriously now, and in the event anyone was sent to prison, judging from recent cases, no one need stay inside the walls, as the "reform" management doesn't seem particular about keeping pris-

One has to admire the courage of One has to admire the courage of In the Democratic ranks there is the Kentucky Racing Association for lots of enthusiasm and sentiment known and regarded highly by the Floyd immediately reported to Gov. Morrow that he had been "called down" by the racing association officials. Now you will see just how big a man our Governor He rushes headlong into the litical campaigner. controversy and threatens dire disthe removal of Judge Price and in flaring headlines said that Floyd of the Kentucky tracks. shouldered and weary carrying the burden alone. Tobe, the big boss, Is still groggy from his series of disappointments, first the Cabinet po-sition throw down and then the neglect to give him the National Republican Chairmanship. One can see how hard it is for him to take an active interest in ward politics and encourage the Chesley Club and the Hurley Pope organizations. And to add to the machine's troubles not a single Federal appoint-ment outside that of Louisville Postmaster will be at its disposal; the way, if Col. Petty receives the Postmastersip we hope that he will not be imposed on as when his present position. As Chief of Police he allowed the machine to destroy a competent force of police and fill their places with by all those present. motormen and conductors. who have earned wide if not unenviable fame as Louisville's Key stone comedy cops. If appointed Postmaster we hope that Petty will not carry the Keystone regime into our mail service. But to another source of trouble for the Hert-Searcy-Chilton bosses. Judge Huston Quin refused to accept the Repub-lican nomination for Mayor when he saw that he was expected to go on the stump and defend near Mayor

Smith and the present misfit ad-

Realizing that Smith's administration has been a failure, the ma-chine has determined to make the near Mayor earn the promised po-sition of President of the Water Company in the event of success this fall. He has been directed to start an alibi campaign and the first gun of "please don't blame us' began in the machine organ, the Herald, appearing last week with a page of alibis for the failure of Smithy's administration, camouflaged by talk on the commission form of government. In referring to his Keystone police department the near Mayor truthfully said: "The most frequent and successful attack is made upon the police department." Thus Smithy acknowledges that the attacks are "successful" because they are true. The people of Louisville know that the unheard-of reign of crime in Louis-KEYSTONE COPS MAKE RAID. ville can be charged to the incompetent street-car police, and they also know that in Louisville's long history there was never as many stories of drunken police, shooting scrapes, etc., supplemented by fighting and drunken Keystoners right in at Versailles once again gave our the police stations. Now if near Mayor Smith wants to "explain" his administration to the public we suggest that he throw some light

on the following questions: Why did he recede from his platform promise of lower taxes and give us the highest rate in Louis-

ville's history?

Why does he permit the Republican Campaign League, with J. H. Scales as agent, to collect campaign money from police, firemen and city employes after pledging that he was

opposed to it? Why did he allow the Hert-Searcy-Chilton machine to bar Police Captain Bennett from a city or county position after promising a delegation of ministers and the grand jury that he would retain

Capt. Bennett? Why did he denounce horse racing publicly and then attend the races in company with A. T. Hert

at New Orleans? Why does he favor a raise in rates for the 'phone companies and not the street car company?

How much money has been collected for violation of the overtime auto parking law, where is that fund now, and what is it to be used for?

Now if near Mayor Smith will explain some of the above pertinent questions to the taxpayers he will go a long ways toward explaining the weaknesses of his administration. Of course there are hundreds of like questions but the above are uppermost in the minds of the thinking public.

Ross of Jefferson county, and in a political battle deserted his boss for the Hert-Searcy-Chilton machine. All concede that Floyd wasn't years ago at the Tyler Hotel when strong in political circles and was he advocated an even break and never considered as having the fair deal for every Democratic gathnever considered as having the alightest power or control with any faction. been appointed administrator of the will of the late Bishop John P. Farrelly, of Cleveland. "Bishop Farrelly left no personal estate," Dr. Scullen said in commenting on the provisions of the will. "His life was one of voluntary poverty, and with the exception of the small cost of maintaining his personal home and his meager personal requirements, his income as Bishop was used in aiding charitable institutions and purchasing equipment for schools. The Bishop took great pleasure in presenting needy institutions with money. He never took any of the income from his mother's estate in Nashville, Tenn., and that property and the proceeds from it already have reverted to the diocese of Nashville to be used for eduactional purposes." In papers filed with the will, Bishop Farrally's next of kin are given as Mrs. Mary Moore McCormick, of Shepardsville, war existed in Ireland. No rules of war fare nermit the execution of the prison Sunday afternoon for a farewell visit. Every church was crowded at masses celebrated after the executions for the repose of the souls of the six men.

"If your report," the Lord Mayor said, "that six members of the army of the Irish Republic were hanged today is correct, it means that six more prisoners of war have been murdered and may result in reprisals, which would be a very regretable thing. Only a fortulght ago a motion was made in the King's bench, the highest tribunal, to quash a sentence of death imposed on an Irish prisoner by a court-martial, but it was voted down on the ground that the civil court had no jurisdiction, as a state of war existed in Ireland. No rules of war existed in Ireland. No rules of visit.
